Save time and money in commuting costs with GetWired, a blended learning program with most instruction occurring online. Most courses have one hands-on lab activity day at a WECA Training Facility; some courses are entirely online. You can take a 32 to 42 hour course anywhere you have access to high-speed internet.

GetWired courses are instructor-led inside a virtual classroom using a combination of lecture, presentations, and discussions. All courses are taught by a certified electrician instructor. Hands-on lab Saturdays are an option for many courses and are included in your tuition and are conducted in person at the closest participating WECA location to you. For more information on computer specifications, visit <http://www.goweca.com/GWtechreqs.aspx>.

P.S. WECA is rolling out a new way to take GetWired! If you prefer to take classes on your own time, at your own pace (rather than scheduled and instructor-led), you can choose the online, self-paced option. Now available for GetWired 101 through 204, 301, 302, 304, 401, 402, and 404, plus Perfect Solar Installations, a self-paced alternative to GetWired 403.

THREE WAYS TO TAKE GETWIRED

WATCH VIDEO

1) GetWired Online Instructor-Led with ONSITE IN-PERSON LAB
Attend classes from home, online, at scheduled times 2x per week. Attend one lab on a Saturday at nearest training facility.

2) GetWired Online Instructor-Led with ONLINE INTERACTIVE LAB EXPERIENCE
Attend all classes from home, online, at scheduled times 2x per week. Attend one interactive lab online, led by instructor, at pre-determined time.

3) GetWired ONLINE SELF-PACED
Take all classes from home, online, on your own time and at your own pace. Attend one interactive lab online, at a time and pace of your choosing. An instructor is always available by email for questions.
